

KOMATSU GENUINE GROUND ENGAGING TOOLS

Adheres to stringent quality specifications for metallurgical composition and hardness

- ▶ High Impact Resistance
- ▶ Improved Wear Resistance
- ▶ Precise Fit to Adapter
- ▶ Long Service life

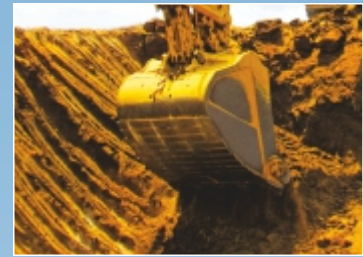

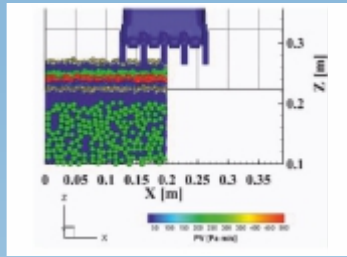

IT PAYS TO INSIST ON GENUINE PARTS

Tooth Points

Advantages

- ▶ Self Sharpening design
- ▶ Improves Penetration
- ▶ Improves Material Flow
- ▶ Reduces Bucket filling time

Variants available for different applications of General Construction, Irrigation, Mining (Granite & Marble) and Blue Metal Quarry

Standard

Dura

Dura RC

Cutting Edges & End Bits

Motor Graders

Cutting Edges available in variants to suit different applications

- ▶ Carbon Steel Cutting Edge
- ▶ Heavy Duty (HD) Cutting Edge

Type	Thickness	Width	Length	Weight (Kg)
HD Cutting Edge	3/4"	8"	6'	50.9
